

Maths Practice Paper 1

1.Arithmetic:

What is the sum of 123 and 456?

2.Geometry:

What is the area of a rectangle with a length of 10 cm and a width of 5 cm?

3.Multiplication:

Calculate 8×9 .

4.Division:

What is 81 divided by 9?

5.Arithmetic:

Subtract 432 from 560.

6.Geometry:

What is the perimeter of a square with a side of 6 cm?

7.Multiplication:

Multiply 12 by 15.

8.Division:

Divide 100 by 4.

9.Arithmetic:

Add 234, 567, and 89 together.

10.Geometry:

A triangle has sides of length 5 cm, 12 cm, and 13 cm. Is it a right triangle?

Answer Key

1.579

2.50 cm²

3.72

4.9

5.128

6.24 cm

7.180

8.25

9.890

10.Yes ($5^2 + 12^2 = 13^2$, so it's a right triangle by Pythagoras' theorem)
